

5 Step Music Activities

MAKING MATHS MEMORABLE

The process of composition can act as a form of revision, allowing important contents to stick.

01

Reflect on the different topics taught in this term's/year's maths lessons. What can students remember?

02

Give pupils the choice of four instrumental tracks to base their maths song on:

- Heads Shoulders Knees & Toes
- You Are My Sunshine
- You Can Count On Me
- Their own choice

03

If pupils are choosing their track, be mindful of giving them a time limit to choose, and ensuring the track is appropriate, even if instrumental

04

Either in groups or individually, pupils compose lyrics and a melody for their maths song. This can be a chorus, as long as it's memorable

05

Pupil performance of maths song to peers. Ensure these are recorded, as they could be used as songs for future classes
