

5 Step Music Activities

JOBS & RESPONSIBILITIES

This lesson uses music to illustrate the different roles people have, and make students think about the choices they will be making.

01

***Sing** the song Heigh Ho, from Snow White and the Seven Dwarves. March around the class while singing/whistling.

*Use previous resource on How to Teach a Song

02

Discuss with pupils what they want to be when they grow up. What will they contribute to society? How will they feel about it?

03

Watch the Mormon Tabernacle's version of Heigh Ho.

- What are the different orchestral instruments?
- What role do they have?
- Students pick a pretend instrument and mime to the music

04

Explain that just like the orchestra, society has different roles that are filled to make it work. Discuss these roles

05

Listen to Bad Guys from Bugsy Malone. Discuss citizenship. How would you *choose* to be bad, and how would we become good citizens?
