

# 5 Step Music Activities

## YOUTUBE KARAOKE

Singing Karaoke helps boost confidence and relieves stress. Here are five suggestions for activities incorporating YouTube Karaoke.

01

**Metaphors:** Choose a song and identify the metaphors. Why do lyric writers use metaphors? What do they mean?  
e.g. Jolene - Dolly Parton/Miley Cyrus

02

### **Pronunciation:**

Choose Disney songs that explore difficult words. eg:  
'Genuflect' - 'Prince Ali' Aladdin  
'Beguine' - Under The Sea, Little Mermaid  
'Quid Pro Quo' -  
'Be Prepared', The Lion King

03

### **Remove words from the song**

For example, in Can't Stop The Feeling by Justin Timberlake say you will remove the word 'Can't'. Anyone who says the word has to sit out

04

**Wrong Lyrics:** After singing the song, present lyrics of the song that have been edited with mistakes. Have members of the class correct the mistakes

05

### **Target sounds**

In an adaptation of **3**), pupils can only sing words with certain sounds e.g. 'ai' - 'Kind', 'I', 'Mind'

You can refer to the 'How To Teach A Song' resource if you are looking to introduce your song choices effectively.
