

5 Step Music Activities

PETER & THE WOLF

Peter And The Wolf, as well as being an engaging story, helps introduce the instruments of the orchestra. When accessing the video, use the link [here](#).

01

Begin by asking pupils to name the instruments of the orchestra. See who can name as many as possible. What instruments **aren't** in the orchestra

02

Play Peter and the Wolf . Have a worksheet prepared, or get students to note down which character represents which instrument

03

Why are those instruments chosen for those characters? Pupils to split into pairs and write adjectives to describe the sounds e.g. High/Low Loud/Soft Fast/Slow

04

Introduce orchestral families. Which of the families do the instruments belong to?

05

Create a classroom orchestra. Each pupil chooses an instrument and draws a factsheet with a picture. If there's time, students can sit in an orchestra and hold their sheets up
